

PCB layout diagram for a circuit board. The board is rectangular with a blue dotted border. It features a 3-pin header on the left labeled GND, 3V3, and +5V. A 3-pin header on the right is connected to a circular component labeled U1. The circuit includes a voltage divider with resistors R1 and R2, an op-amp IC1, and a diode U2. A small inset shows a detailed view of the U1 component. The text "Fabule" is written in a stylized font across the center, and "Version 1.0.0 Batch 1" is at the bottom.
